OLD BUSINESS:

Rockin TJ, GD-2C-15, Middle/Hyalite Creek

7-16-15 Meeting:

Dave looked at this and what they did matches the work performed in the past; they applied gravel to the bank with a bobcat. I don't think I'd fill out a complaint on this.

Buddy – I remember going on this inspection and I thought they had a maintenance permit but Marcie researched and apparently this started as a complaint back in 2006. I didn't feel they needed a permit then.

Marcie – in 2006 a complaint was filed and determined that a permit was not needed for whatever reason. When I spoke with Teresa at Rockin TJ, she assured me that there was not a bobcat in or around the stream and said a neighbor is always trying to get her in trouble. She gave me permission to have Dave look at. Upon Dave's review, I was surprised that she was not being completely honest about the situation. We typically require a permit anytime equipment is used and Don is pretty adamant about that. I would think after the complaint situation she would have applied for a permit.

Buddy – she was aware that a permit was needed.

Dave – she performed the same work she's done in the past.

Marcie – the past work probably should have been permitted and wasn't. I don't feel she should be able to alter the banks as she pleases when we'd likely require a permit from anyone else.

Michael – move that we send letter of advisement (compliance with 310 law) and she submit 310 application for past work.

Jason – second
