

3:30 p.m. – meet with GGWC to discuss partnership opportunities

4:00 310 Business Agenda:

MEETING CALLED TO ORDER:

THOSE PRESENT:

READING AND APPROVAL OF MINUTES FOR May 17th Meeting:

GUESTS:

310 INSPECTION REPORTS ~ READY FOR DECISION:

Inspection Date	7 /11/2012	Application Number	GD-046-12
Applicant	Kerin and Associates, P.C.		
Landowner	Jim Jupka		
Perennial Stream	Elk Grove Slough	Section	23 T 2S R 4E
Type of Project 1	Bridge Construction		
Purpose	Install a 20' long x 12' wide bridge spanning the slough as private access to garage and office.		
Inspection Recommendation	Approved as Proposed		
Discussion			
Board Decision			

Inspection Date	7 /11/2012	Application Number	GD-047-12
Applicant	Montana Rail Link		
Landowner	Same		
Perennial Stream	UT of Rocky Creek	Section	8 T 2S R 6E
Type of Project 1	Culvert Construction		
Purpose	To replace two aging culverts that have recently started to fail which pass under MRL main line track. New corrugated metal culverts, 36" x 84' would be installed side by side to specifications.		
Inspection Recommendation	Approved with Modifications		
Inspection Modifications	1. Recommend that culverts be placed approx. 6" beneath existing channel bed to promote sedimentation in the culvert bottom for fish passage. 2. Revegetate inlet and outlet areas with native seeding.		
Discussion			
Board Decision			

Inspection Date	7 /11/2012	Application Number	GD-048-12
Applicant	Troy and Lorena Dorrell		
Landowner	Same		
Perennial Stream	Middle Creek	Section	5 T 1S R 5E
Type of Project 1	Bank Stabilization/Alteration		
Purpose	(Bridge installed Oct, 2011 (GD-59-11). To authorize the removal of the original bridge pilings located in the center of the creek under the new bridge and to authorize placement of a single boulder and pre-cast concrete pads on the exposed stream banks under the upstream edge of the bridge for additional bank protection.		
Inspection Recommendation	On Hold		
Inspection Comments	Applicant should provide better description of how concrete panels proposed for placement along the stream banks will be anchored. We have concern that the panels could be easily transported by high river flows. Also, additional description of how the old pilings would be removed would be helpful.		
Discussion			
Board Decision			

GALLATIN CONSERVATION DISTRICT MEETING AGENDA
 June 21, 2012 –4:00 p.m. 310 Business; 7:00 p.m. District Business
 EAST-wing Conference Rm, 3710 Fallon Street, Bozeman, MT 59718

Inspection Date 7/11/2012 **Application Number** GD-049-12
Applicant Matthew W. Flynn
Landowner Ruby B Arts
Perennial Stream West Gallatin **Section** 34 **T** 1S **R** 4E
Type of Project 1 Bank Stabilization/Alteration
Type of Project 2 Flood Protection
Type of Project 3 Irrigation Structure
Type of Project 4 Channel Alteration/Debris Removal
Purpose To have adequate irrigation water for crops & pastures. Remove any 'plugs' that river deposits at heading. Keep channel heading to head gate free flowing. Place concrete blocks (or similar) in river channel to divert some water if necessary and enough water in river allows.
Inspection Recommendation Approved as Proposed
Inspection Comments Approved as a 5-year permit. Applicant agrees to contact FWP on an annual basis before doing any work (for 318 approval).
Discussion
Board Decision

Inspection Date 7/11/2012 **Application Number** GD-050-12
Applicant Gallatin Valley Land Trust
Landowner City of Bozeman
Perennial Stream Nash Spring Creek **Section** 30 **T** 2S **R** 6E
Type of Project 1 Bridge Removal
Type of Project 2 Bridge Construction
Type of Project 3 Placement of Fill
Purpose To remove a structurally unstable existing wooden bridge and replace with a new wooden bridge downstream (8' x 23'?)
Inspection Recommendation Approved as Proposed
Inspection Comments Proposed bridge is a good design and in a good location.
Discussion
Board Decision

Inspection Date 7/11/2012 **Application Number** GD-051-12
Applicant Don Cape Jr
Landowner Same
Perennial Stream Trib of Catron Creek **Section** 26 **T** 1S **R** 5E
Type of Project 1 Culvert Construction
Type of Project 2 Road Construction/Maintenance
Purpose To construct a road on the west side of Valley Center..will provide access to a future 80 unit hotel. (Three culverts to be modified; a portion of ditch (Catron Creek) will be relocated to the north in a pipe to accommodate the read alignment and future utilities.)
Inspection Recommendation On Hold
Inspection Comments Recommend consideration of maintaining E-W portion of channel (210') as an open channel and not in culvert. Re-positioning of existing culvers along Valley Center is ok.
Discussion
Board Decision

310 EMERGENCY:

GD-2E-12, Audrey's Pizza (Steve Schleger), 401 E Peach; Bozeman Creek. Steve will be submitting a 310 application to address the removal of the rock on the bank and to revegetate bank. *310 not received.*

Application Number: GD-03E-12	Date Action Taken: 5/29/2012
Applicant: CNR Properties LLC	Section: 2
Address: PO Box 743	Township: 3S

GALLATIN CONSERVATION DISTRICT MEETING AGENDA
June 21, 2012 –4:00 p.m. 310 Business; 7:00 p.m. District Business
EAST-wing Conference Rm, 3710 Fallon Street, Bozeman, MT 59718

Perennial Stream:	Gallatin River	Range:	4E
Cause of Emergency:	Lack of irrigation water in Allison Lewis Ditch		
Action Taken:	Using wheeled backhoe cleared gravel bar at south end of ditch at confluence of river. (about 60 feet long, 7 feet wide in bottom of ditch channel, no banks or vegetation disturbed.) Strengthened diversion in side channel/west side of ditch using rocks and gravel		
Inspection Date:	7 /11/2012		
Inspection Results:	Approval as proposed		
Inspection Comments:	Work done to ensure water flow to ditch was appropriate in nature and extent.		
Discussion:			
Supervisor Decision:			

Application Number:	GD-04E-12	Date Action Taken:	6 /19/2012
Applicant:	Matt W Flynn	Section:	34
Address:	8081 Thorpe Road	Township:	1S
Perennial Stream:	West Gallatin River	Range:	4E
Cause of Emergency:	River channel of West Gallatin had moved gravel & sand and created a 'plug' at the heading to the man-made channel that leads to our head gate. The result was little to no water. Our ditch was dry.		
Action Taken:	Removed 'plug' by dragging gravel & sand to island between our heading and river channel. Dug our channel a little deeper to the head gate.		
Inspection Date:	7 /11/2012		
Inspection Results:	Approval as Proposed		
Discussion:			
Supervisor Decision:			

Application Number:	GD-05E-12	Date Action Taken:	6 /26/2012
Applicant:	Randy Rahn	Section:	10
Address:	PO Box 11769	Township:	1S
Perennial Stream:	East Gallatin	Range:	5E
Cause of Emergency:	Need water for irrigation.		
Action Taken:	Placed 5 concrete blocks in river to divert water into ditch.		
Inspection Date:	7 /11/2012		
Inspection Results:	Approval as Proposed		
Inspection Comments:	Diversion as currently installed is a reasonable approach at this location.		
Discussion:			
Supervisor Decision:
